

Truck and Trailer Inspection Workshop

Inspection Workshop

This inspection workshop is intended to help you recognize trucks and trailers that have been compromised for the purpose of smuggling terrorists, terrorist weapons and contraband.

The methods used within this handout do not supersede company policies and procedures regarding security at the workplace.

If suspicious cargo and/or contraband is detected, immediately notify your Supervisor. Contact the proper authorities and U.S. Customs & Border Protection, as warranted.

1-800-Be-Alert

Inspection Workshop

The inspection workshop will cover:

Policies and Procedures...

Inspection processes should be conducted at key points throughout the supply chain:

* The more locations these inspections are conducted, the higher level of security your shipment will have.

Conveyance Security Criteria...

Conveyance Inspection Procedures:

Andrew Wright Collection

Northern Border
